

Bidirectional Search That Is Guaranteed to Meet in the Middle

By:

Aman Peshin - 1225476655 - apeshin@asu.edu

Vishal Jaimin Vakil - 1225551353 - vvakil1@asu.edu

Sandeep Kallepalli - 1225463655 - skallep2@asu.edu

Appari Lalith - 1225493945 - alalith@asu.edu

Meeting 4:

Scribe: Appari Lalith

Meeting Date: 17th November 2022

Meeting Attendance: Aman, Vishal, Sandeep, Appari were present

Expectation from each team member: To have come up with the solution of the error that was encountered while executing the code for the implementation of the bidirectional search algorithm.

Inputs from each team member:

- Appari was able to figure out the error in the code due to some missing important conditions.

The necessary changes were made in the code and it was working perfectly with any error.

The project was taken further for testing and a discussion on T-testing was made.

Agenda of the meeting: To come up with a solution to make the code work perfectly fine.

Discussion on the further milestones of the project

Task progress:

Milestone 1: Getting started with the Project (Understanding of the topic and project requirements.) - 100% complete.

Milestone 2: Literature Survey (Gaining deeper knowledge about the tasks that needs to be done in this project.) - 100% complete.

Milestone 3: Developing the code for Bidirectional search implementation - 100% complete.

Milestone 4: T-testing - 0% complete.

Next meeting date: 24th November 2022

Next Meeting agenda: To complete the T-testing part of the project and compiling the results.
